1. All pending claims 22-31 are allowed. Claims 22, 29, 30, and 31 are independent.

2. The following is an examiner's statement of reasons for allowance:

Independent claim 22 and its dependent claims 23-28 and independent claim 29 were allowed in the previous Office Action dated July 1, 2005. Reasons for allowance given in that Action are still valid after the updated search. The reasons are repeated below.

Apparatus claim 22 and corresponding method claim 29 are allowable over the prior art of record because the prior art does not teach, in an image reading apparatus, an operation mode setting unit arranged to set one of the plurality of operation modes that require different consumption powers, in accordance with a power source the power supply of the apparatus uses, the power source being selected from at least two power sources, and a shading correction unit using calibration data that corresponds to the set operation mode to perform shading correction of image data obtained by the original image reader of the apparatus, as claimed in claims 22 and 29.

Claims 23-28 depending on claim 22 are allowable for the reason given for claim 22.

Claims 30 and 31 have been amended to overcome the rejection under 35 U.S.C 101. Claim 30 claims a computer-readable storage medium storing a program for performing a method of controlling an image reading apparatus, the method being the method claimed in claim 29. Claim 31 claims a computer program embodied on a

computer-readable storage medium for performing a method to control an image reading apparatus, the method being the method claimed in claim 29. Thus, claims 30 and 31 are allowable for the reason given for claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
